**Venue: The Club, Colonial Hall, D.N. Nagar,
Andheri (W), Mumbai – 400 053.**

Time:

**(Day 1) 08:30 AM to 08:00 PM &
(Day 2) 08:00 AM to 06:00 PM**

Greetings from Ozone Forum of India!

We are happy to announce our annual conference for knowledge sharing and empowering our doctors to the latest techniques and technologies for improving patient health through an integrated approach.

Ozone therapy has emerged as one of the meaningful clinical tool in the prevention and management of various acute and chronic conditions.

As an endeavor to teach genuine scientific knowledge on ozone therapy, we have invited Dr. Maria Emilia Gadelha Serra, President of the Brazilian Society of Medical Ozone Therapy (SOBOM). She is an international expert on ozone therapy and a strong promoter of integrated health.

She will cover an extensive topic of integrated oncology and evidence map on clinical effectiveness of medical ozone therapy.

The conference will also cover Ozone Therapy protocols, pain management, integrated oncology, nutritional therapy, gut healing, Vitamin D therapy, infectious diseases, autism, neurology, anti-aging, use of CBD oil in oncology, how to recover from vaccination injury, use of melatonin in oncology, enzyme therapy, fasting and diet protocol & how to treat bio-films.

Also, we have organized pre-conference workshop for Doctors who want to enhance their knowledge on various ozone therapy treatment protocols.

Highlight of the conference – Launch of book on Ozone Therapy – the first book published by Ozone Forum of India.

"Clinical Ozone Therapy"

This book converges the evidence from published literature and clinical practice to provide guidelines in the management of diseases through ozone therapy. The book comprises of chapters that covers basics of ozone therapy, mechanism of action of ozone therapy, various types of ozone applications, and management strategies in deploying ozone therapy for skin disorders, pain, intervertebral disc prolapsed, cancer, diabetes mellitus, respiratory diseases, infectious disease, chronic renal failure, circulatory disorders, COVID-19, thyroid disorders, tuberculosis, liver disorders, gastrointestinal disorders etc. This also consists of interesting case reports, doses used in ozone therapy and concomitant lifestyle approaches recommended along with ozone therapy.

Conference Fees :

For OFI Members - Rs. 15,000/- (including GST); For Non-OFI Members - Rs. 20,000/- (including GST)

Early bird offer till 10.04.2023 - Rs. 12,500/- for conference & pre-conference workshop

One copy of above book will be complimentary for all the registered attendees
